

Making a Difference in 2010

On February 13th, KTGy's Bill Ramsey and his wife Laura will participate in the Tour de Palm Springs to not only challenge themselves to a 100-mile bike ride, but more importantly, to raise money for a cause that means so much to them. To date, the Ramseys have raised \$5,710 on behalf of Team in Training, a non-profit organization that works with the Leukemia & Lymphoma Society (LLS) to raise money for all types of blood cancers through training and support of team participants. Money raised goes toward research, patient counseling and support groups.

"We have been greatly affected by blood cancers," says Bill. "Laura's mom had Hodgkin's disease when Laura was young and is now living with non-Hodgkin's Lymphoma. Also, we have had three close friends that have battled and won their fight against Hodgkin's disease in the last several years."

View Bill and Laura's website team page to how their training is going and if you are interested in contributing to their fundraising effort, visit: <http://pages.teamintraining.org/ocie/tdps10/Imonabike>

The KTGy partners are pleased to support Bill and Laura and all of our employees in achieving their goals.
